

# Photo Booth Activity Instructions

Want to capture all the faces of support at your event? Try an Each Mind Matters photo booth! Here is everything you need to do this activity to continue to spread the mental health movement.

## Toolkit includes:

- Activity instructions and ideas
- An 11x14 Each Mind Matters frame

## Create Your Own Backdrop

Decorate a wall and provide different lime green props people can pose with. A simple way to set up an area is to get a lime green table cloth and place it on the wall. Decorate it with Each Mind Matters stickers, lime green ribbons and even balloons and streamers.

## The Photo Challenge

During the month of May, Each Mind Matters is holding a photo challenge! Winners\* will receive a lime green gift basket with items from the Each Mind Matters store. Here is how to enter:

- At your next event make sure the Each Mind Matters frame is available and encourage people to take a photo or a selfie.
- Have attendees put the frame up to their face and snap a picture.
- Encourage them to upload their photos to their social media channel, tag @EachMindMatters and add the hashtags **#EachMindMatters** and **#MillionsLikeMe**.
- One winner will be selected each week and featured on our Each Mind Matters Facebook, Twitter and Instagram pages.

\*Winners must live in the United States.

*Thanks Orange County for sharing your successful photo booth pictures!*

## Build a Photo Booth

If you're up for a challenge why not build your own photo booth? Our friends at the Fresno County Department of Behavioral Health have created step-by-step instructions on how to create your own photo booth with PVC pipes. Check out their spec sheet on the next page.

Funded by counties through the voter-approved Mental Health Services Act (Prop. 63).
